Trafford Publishing, United States, 2014. Paperback. Book Condition: New. 279 x 210 mm. Language: English . Brand New Book ***** Print on Demand *****.This book presents character portraits of Tudor, Stuart, and Protectorate rulers of England from AD 1456 to 1714. The author derived the portraits following a previously described method by sorting and blending interpretations from each ruler s epoch and birth charts. Please note that none of the interpretations are the author s, that he has included all points obtained but that he has minimised duplication. The unpolished portraits generated are impartial, free from bias, and consist of relatively modern expressions for appreciation and comparison purposes. Concise has been added to the title because the most speculative, the more mundane, and the least relevant interpretations have been relegated to smaller print, but the order throughout each portrait remains unchanged. Additionally, Appendix 1 collects all the natal charts and comments on them. In case of further interest, Appendix 2 assembles the natal charts of some of England s nearly rulers during the time frame of the book. Finally, Appendix 3 examines the Tudors and Stuarts separately to try and find group heredity traits among them. The results obtained also start to support the idea that, importantly, we are members of the solar system even though, naturally, we are Earthlings first.
