Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from **Pedagogical Chairs in Colleges and Universities** The last argument derives additional strength from the peculiar stage of education upon which the foremost nations and countries have now entered. Education has at last reached the reflective or scientific stage. Throwing off the clutch of the empiricist, she has ascended to her long-vacant seat in the family of sciences. Evidences of this are the increased attention paid to education by text-writers on psychology and ethics, the later pedagogical literature, and the more systematic and rational methods of instruction in schools, and the rapidly-increasing facilities for teaching educational science. Thus the very existence of the chair is a proof of its usefulness and its necessity. On this ground alone - indeed, on the narrower ground of educating research alone - the chair can be fully vindicated. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
