

AIDS in Asia The Challenge Continues

By Jai P Narain (Ed.)

Sage Publications, 2005. Hardcover. Book Condition: New. AIDS poses an unprecedented health and developmental threat the world over including Asia. Ever since it emerged in the early 1980s, it has been spreading rapidly across continents and devastating millions of lives. In the process it has stretched the health-care systems and wrecked the economies and social fabric of many societies. Developing countries, including those in Asia which has the second highest number of people living with HIV/AIDS are the most seriously affected. In Asian countries, the problem is compounded by the lack of awareness, poverty, and inadequate funds and infrastructure. This important and comprehensive volume focuses on the epidemiological and programmatic aspects of the HIV/AIDS epidemic in Asia. The contributors discuss the dynamics and determinants of HIV and cover a wide range of pertinent topics related to prevention, care and treatment. These include: - The health, economic, socio-cultural and security dimensions of HIV/AIDS - Success stories in HIV prevention and care including 100% condom programme - Antiretroviral treatment and the 73 by 5? initiative - Management of HIV and sexually-transmitted infections - Drug-related HIV - HIV vaccine development - The role of NGOs - Country-specific HIV reports The contributors highlight the lessons learned...
