Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.North Korea s decisions to restart nuclear installations at Yongbyon that were shut down under the U.S.-North Korean Agreed Framework of 1994 and withdraw from the Nuclear Non-Proliferation Treaty create an acute foreign policy problem for the United States. North Korea s major motive appears to be to escalate pressure on the Bush Administration to negotiate over Pyongyang s proposed nonaggression pact and/or a new nuclear agreement that would provide new U.S. benefits to North Korea. However, re-starting the Yongbyon facilities opens up a possible North Korean intent to stage a nuclear breakout of its nuclear program and openly produce nuclear weapons within six months. North Korea s actions follow the disclosure in October 2002 that North Korea is operating a secret nuclear program based on uranium enrichment and the decision by the Korean Peninsula Energy Development Organization (KEDO) in November 2002 to suspend shipments of heavy oil to North Korea. North Korea claimed in April 2003 that it had nuclear weapons and that it had nearly completed reprocessing of 8,000 nuclear fuel rods. The main elements of Bush Administration policy are (1) terminating the Agreed Framework; (2) no negotiations with North Korea until it dismantles its nuclear program; (3) assembling an international coalition .
