By Unknown Author

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Rubber in Industry: A Story of the Development, Manufacture and Uses of Rubber Belting, Hose, Molded Goods, Packings, Floor Coverings, Miscellaneous Rubber Articles and Rubber Insulated Wire When employed in connection with rubber manufacturing, the term, Mechanical Goods, embraces that group of articles which are used in conjunction with the construction of other things and regardless of whether these be a part of the finished product itself or accessory to the equipment employed in its manufacture, the fact remains the same. By way of illustration - the radiator hose of an automobile is an article falling into this category just as is the gigantic drive belt transmitting the force from the motor or steam engine to the machines shaping the parts of the car; or the little rubber disk used as a bumper behind the stateroom door of a Pullman car is just as much a mechanical item as is also the rubber tiling on the corridor floors of the car manufacturers office building. Literally thousands of different purpose items come under this classification, which,...
