A self-audit is provided at the outset to assess your prior knowledge and highlight areas for your personal development. The book will then help you to develop your mathematical understanding by encouraging you to think mathematically. You will be asked to create an action plan to aid your development and this will also allow you to build up a portfolio of evidence to help you achieve QTS (Qualified Teacher Status). Rather than treating subject knowledge and pedagogy as two separate entities, the book sets maths subject knowledge in context, showing you how to apply it in the classroom, through models and cases of best practice. Misconception boxes appear throughout each chapter to highlight common misconceptions children have in maths and help you to make connections between different areas of mathematics so that your pupils will see mathematics as a whole rather than a series of separate and often disparate ideas. Case studies in each chapter...
