HYPERTREE DECOMPOSITIONS FOR COMBINATORIAL AUCTIONS

Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | Optimal Winner Determination | Combinatorial auctions are auctions in which each bid can be placed on a set of items, as opposed to standard auctions, in which each bid is placed on a single item. The winner determination problem for combinatorial auctions is known to be NP-complete. One of the approaches to cope with the hardness of the problem is to identify tractable classes of combinatorial auctions by means of hypertree decompositions. The winner determination problem is tractable on..
