

Moral Combat: A History of World War II (Paperback)

Filesize: 4.9 MB

Reviews

Good e-book and helpful one. It can be written in basic phrases rather than confusing. I realized this ebook from my i and dad recommended this book to find out.

HarperCollins Publishers, United Kingdom, 2011. Paperback. Condition: New. Language: English . Brand New Book. A clear, chronological narrative exploring many of the ethical dilemmas posed for real people during and after the Second World War. Literature on the Second World War is voluminous. In `Moral Combat`, however, Michael Burleigh achieves what few historians can claim to have done; by exploring the moral sentiment of entire societies and their leaders, and how this changed under the impact of total war, he presents readers with an entirely fresh perspective of this conflict. Opening with the predators - Mussolini, Hitler, Prince Hirohito of Japan - and moving onto appeasement (a popular policy or a wrong policy?), the rape of Poland, Barbarossa, the role of Churchill, and the Holocaust, Burleigh analyses the moral dimension of the Second World War's most important moments. More than merely a history of great men, however, Burleigh also examines the moral reasoning of individuals who had to make choices under circumstances difficult to imagine. Stressing the maxim that the past is used to make sense of the present world we live in, he takes us right up to today's war on terror - a war of competing ideas. What, in the end, will constitute its victory? Burleigh's fascinating and deeply engaging exploration refuses to draw lessons from the past for the future, remaining instead firmly focused on the on-the-spot decisions that came to define the conflict. Original, perceptive and remarkable in scope, this is an unforgettable and hugely important Second World War history.
