In the third exciting novel of this treasure-hunting series, Thalia Phoenix (aka Phoe), who is an amateur archaeologist, is at an impasse when Simon Kessler wants her to find Beowulf's lair. Convinced that the Beowulf myth is nothing but an ancient poem, she refuses. Instead, Peter takes the mission. When Peter bungles the job, Phoe, Peter, Jonathan and a computer expert named Kadan get swept up into something dangerous and compelling, something no human has ever experienced. The mythology of Beowulf and Grendel collides with technology when Kadan reveals intriguing information about another Beowulf—a software and hardware combination that delivers experiences beyond anyone's wildest dreams. Unfortunately, Kadan has only a short time to come up with the game changer that could save them. Meanwhile, the Phoenix Quest team is battling for their very lives. The dangers in the mythical poem could become their new reality and the clock is ticking.
