This Intermediate Course from the 28 SAT Math Lessons series gives you all of Dr. Steve Warners unique tips, tricks and tactics that he has developed over the last 14 years to get his students from a 500 to a 700 in SAT math. Dr. Warner has used his Ph. D. in mathematics to create the ultimate system for generating huge score increases in SAT math with only 20 minutes of preparation each day. The material in this book consists of Dr. Warners exclusive strategies that students usually pay \$375 per session to access during private tutoring lessons. The unique techniques Dr. Warner teaches, now available in his Get 800 collection of books, are the most effective ever published and cannot be found in any other SAT prep book! Be careful! Some of Dr. Warners students have shown such significant score increases that the College Board has accused them of cheating with no evidence besides their score increase from one SAT to the next. If you feel that this may happen to you after using one of Dr. Warners books please contact him before taking your next SAT and he will tell you how to protect yourself. Beware of other books on the market that claim to be as good as Dr. Warners. No book can be as effective as this one unless it targets students in a specific score range. They do not understand the philosophy of the test and do not always know how to translate their own genius into points which would fit a specific...
