Hogan, After thwarting the plans of the distantly related humans from the rogue world Jevlen to devastate the Earth and conquer the giant humanoids of the Thurien planets, Victor Hunt and his colleagues travel to Thurien to solve a mystery. How was it possible for the fleeing Jevlenese leaders to have been flung back through space and time to reappear at Minerva - the planet that once existed where the asteroid belt is now - before its destruction? When the humans and Thuriens establish communication with bewildered counterparts in other universes, they decide to send a mission back to Minerva and create new realities in which it was not destroyed. But Imares Broghuilio, the deposed Jevlenese leader, along with several thousand dedicated followers on five heavily armed starships, are already there. And they have a score to settle.
