JOURNEY TO THE CENTER OF THE EARTH (TRANSLATED BY FREDERIC AMADEUS MALLESON) (PAPERBACK)

Digireads.com, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. First published in 1864, Journey to the Center of the Earth is Jules Verne s classic tale of adventure, one of the earliest examples of science fiction. When German professor Otto Liedenbrock finds a coded message in an original runic manuscript of Snorri Sturluson s Icelandic saga, Heimskringla, he discovers what he believes to be a secret passage to the center of the Earth. Professor Liedenbrock, who has long hypothesized that there are volcanic tubes which descend deep into the Earth, embarks immediately for Iceland on a journey of scientific discovery to prove his belief. Along with his reluctant nephew, Alex, and Icelandic guide Hans Bjelke, whom they have hired, the three descend into the bowels of a volcanic crater. A dangerous journey awaits them as they attempt to travel to the center of the Earth. Following a subterranean river to a vast ocean, which they traverse on a raft, they ultimately discover a world filled with prehistoric plants and animals. Journey to the Center of the Earth has captivated readers for generations, and remains to this day as one the most fantastical tales ever told. This edition is printed on premium acid-free paper and follows the translation of Frederic Amadeus Malleson.
