Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Thomas Hardy's Universe: A Study of a Poet's Mind Without criticizing Hardy's philosophy as one would criticize, say, Spinoza's, conceiving it as a system really warranted to lift the burthen of the mystery, dissecting it, and examining each detail with the bright and merciless instruments of a rigid induction and deduction, one may without great qualms yield to the temptation of observing, broadly, how the tentative and unadjusted scheme of the greatest living English poet fits in with those of such thinkers, also vocal to tragedy, who have chosen to eschew imaginative writing and to expose their attitudes more strictly in accordance with the laws of logic. If, indeed, one may attempt to come to grips with the intellectual content of Hardy (and surely one may - a more exhilarating mental sport can scarcely be imagined), it is as impossible to succeed in such an attempt without indicating parallelisms from philosophers as it is to discuss his art without pointing out literary parallels. In particular, it is quite impossible, from the first, to ignore Schopenhauer, - and before one has proceeded very far, Schopenhauer is found to have usurped practically the whole discussion. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
