An Outline Sketch - Psychology for Beginners (Paperback)

By Hiram M Stanley

Createspace Independent Publishing Platform, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.From the PREFACE. The main object of a beginner in Psychology is to acquire psychic insight and familiarity with method, and I have tried to keep this end in view in this little book. The student from the very beginning should be told as little as possible, but should learn and conclude for himself from the simplest observations and experiments. Hence the teacher should see that the scholar in all cases does the original exercises at the point indicated in his own reading, writing them in the blank pages provided at the end of the book; and the teacher should to some extent repeat and expand these exercises in the class. I have given no references to other books, and outside reading I consider to be confusing to the beginner; though, of course, the teacher should be familiar with the standard literature of the subject. In my opinion Psychology should be a subject for the high school, academy and secondary school, and this sketch is particularly designed for such work, but will, I hope, be found useful with beginners of...
