LAUGHING AND CRYING ABOUT ANESTHESIA: A MEMOIR OF RISK AND SAFETY (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2011. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Each working day at least 40,000 Americans undergoing surgery require general anesthesia: an anesthesiologist renders them oblivious. Fifty years ago when the author Dr. Zeitlin began giving anesthesia in the United Kingdom one patient in 1500 died as a direct consequence of the anesthetic. That number was sadly true all over the world. In 2011 mortality and morbidity from anesthesia is too rare to count accurately. Nevertheless the increasing average age of patients coming to surgery and the inventiveness of surgeons require the same or greater vigilance and sophistication that has led to this desirable change. In this book Dr. Zeitlin gives us a view of the difficulties and struggles that have led to this improvement. He recounts his own untutored, frightened early days in the operating room for six years in hospitals in and around London. He continues with illuminating and powerful stories about the remainder of his career both in academic and private practice in Boston, Massachusetts. The patient in the hands of nearly all other specialists is able to see what his or her physician struggles with in making an accurate diagnosis and planning treatment. Obviously the surgeon s patient in the care of the anesthesiologist knows nothing about what actually occurs in the operating room. We believe this is the first book that gives the reader an inside view of the actors on this stage. It is not for nothing that operating rooms are called operating theatres in the United Kingdom. Although he does not aspire to such literary heights the author would like to think that to a small extent he does for anesthesia what Dr. Atul Gawande achieved for surgery with his illuminating book...
