Meteorology: Cool Women Who Weather Storms (Hardback)

By Karen Bush Gibson

Nomad Press, United States, 2017. Hardback. Condition: New. Lena Chandhok (illustrator). Language: English . Brand New Book. Does the weather fascinate you? Thunderstorms, tornados, hurricanes, and snowstorms are just some of the weather events that affect people s everyday lives. Since the time of the Ancient Greeks, people have been fascinated with weather phenomena and how they relate to human activities, such as sailing and farming. Meteorology is the science of the atmosphere, particularly the processes and phenomena that are used in forecasting the weather, and how weather relates to the oceans and climate. Long-term climate patterns, such as El Nino, don t just affect weather. They disrupt global atmospheric circulation, ocean currents, and the economies of many countries. Every day, thousands of meteorologists observe and record measurements at more than 10,000 weather stations on land and sea throughout the world. Data also comes from satellites, weather balloons, and radar. This data is transmitted to weather centers of the world, where computer models produce the information used in weather prediction. Meteorology: Cool Women Who Weather Storms introduces readers ages 9 to 12 to three women in meteorology who are making an impact and inspiring future generations of meteorologists. Kelly Cass...
