Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Bulletin of Duke University, 1998-99: Nicholas School of Environment The mission of the Nicholas School of the Environment is education, research, and service to understand basic environmental processes and to protect and enhance the environment and its natural resources-for future generations. Intrinsic to this mission are (1) a commitment to interdisciplinary approaches, (2) a commitment to objective and, where possible, quantitative approaches, (3) a commitment to principles of ecological integrity, (4) a commitment to the sustainable use of natural resources, and (5) a commitment to environmental education at all levels. The overall objective is to assist in the definition and resolution of problems confronting society, through excellence in natural resource and environmental education and research. The school's emphasis is on defining objectives for natural resource science and management, understanding the interrelated constraints - physical, biological, chemical, ecological, economic, legal and social - and devising and testing alternative management solutions. This approach to natural resource education is pursued through research, formal courses, field studies and seminars, and informally through interaction with practicing professionals by a variety of means. Research and problem solving are integral to the school's mission. The faculty is engaged in a dynamic program of research, much of which is focused on contemporary natural resource and environmental issues, both terrestrial and marine, that are regional, national, and global in scope. Students are also encouraged to involve themselves in real world problems. As part of their professional degree requirements, students must complete a master's project requiring independent research and problem analysis. Teaching and research in the Nicholas School of the Environment are focused within the following curriculums: coastal environmental management; environmental toxicology, chemistry and risk assessment; forest...
