China Mining University Press; 1st edition (January 1. 2007) Introduction of the new coal mine safety and technical training. refresher training materials: coal workers': The coal mine safety is the top priority of the national production safety is directly related to the overall situation of the national production safety work. and even affect the implementation of scientific development concept and building a harmonious socialist society in the historical process. CPC Central Committee and State Council have always attached great importance to production safety work. party and government leaders have profoundly expounded the scientific concepts and guiding principles of the safe production. improve the development of safety first. prevention-based. comprehensive management safety guidelines to develop a strategy of public security according to law. heavy penalties disorder in the security of legal construction. In recent years. introduced a series of major decisions and plans to enhance coal mine safety work. After careful management. the coal mine production safety overall stability. getting better. but the coal mine safety situation is still grim. therefore, to further strengthen the coal safety education and training to do a good job in the coal mine safety production has a very important role. Current coal mining enterprise employees in the overall security quality difficult to adapt to the new industrialization of production safety requirements of the development the contradiction is more obvious each day, to resolve such conflicts the key is really to establish a people-oriented. Larix talent, training to promote safety, training efficiency, the concept of human security concept, fully aware of the safety training is a basic project for the prevention and reduction of the production...
