Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Devereaux s Actual Measure System: The Science and Geometry of Dress In the preparation of this system, it has been my aim to combine and present, in a harmonious whole, all of the modern improvements, as well as to introduce a more perfect method, and more practical operations not found in other systems. In short, to present the subject more as a science than an art. I am aware that however valuable the science of drafting may be, it has by no means been perfect, if indeed it could be said to exist at all. It is only within a few years that the true principles on which this science rests, have been suggested and confirmed. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
