That will not change anytime soon. Therefor it behooves us to study war so that we can be better prepared as a society for the sacrifices required to achieve victory. In that respect it is more important to study the defeated and to understand why they were defeated. Almost as important as the war itself, is the peace. Poor war termination leads to another war while skillful war termination leads to long-term settlement. The essays in this book explore battles, wars, and peace from the lens of what brings victory, what causes defeat, and how to achieve a lasting peace in the aftermath.
