Brand New Book. Excerpt from A Handbook of Greek Sculpture Dedications was the colossal Apollo at Delos. At the rival shrine of Delphi they also set up one of the most conspicuous of all the monuments, and this has happily been recovered in an almost complete state by the French excavators. It consists of a colossal sphinx, mounted on an Ionic column of peculiar early form; this was placed just above the rock of the Sibyl, in front of the platform on which the temple stood. The sphinx, to which we are accustomed as a symbol over a tomb, is doubt less meant here as an allusion to the oracle. The statue itself offers another example of an attempt we have seen already in various works of archaic art - the attempt to reproduce in marble on a large scale a motive taken from minute decorative art. And here, because the scale is colossal, the process is more difficult and its defects are more conspicuous. We see, as in a small...
