Brand New Book ***** Print on Demand *****.Mai Fisher s tenure as head of the United Nations Intelligence Directorate has gone smoother than she expected. She s weathered the usual world crises, minor personnel issues, and typical long hours away from home. Nothing to discourage her from continuing in a job she thought she couldn t handle. As the U.S. presidential election winds down, Mai is caught off-guard when the FBI releases information known only to a few in The Directorate. This blatant attempt by someone in her inner circle to rig an election is a betrayal not only of The Directorate s highest ideals but also a breach of its protocols. The Directorate no longer executes traitors in its ranks; only revealing The Directorate s existence carries that sanction. Mai decides this violation instead meets the standard for extraordinary rendition and solitary confinement for life. Someone in The Directorate doesn t agree.
