You know them as dragons, but the others call them Belamir creatures they put to sleep for the primary purpose of gestating humankind, and creatures that should never be allowed to see the light of day for the sole purpose of preserving this little haven in the universe the way the seraphs know it. Yet, despite all the celestial gimmickry and cross-dimensional malignancy, they have awoken. And intend to set right where they have been wronged. To take back what was by original design with dragons on top and every other existent in their shadow. More so, its common knowledge that humans and their glorified civilization will be first on that list. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN.
