World Castle Publishing, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. When an unknown entity takes control of the science station orbiting Mendel, Corree goes aboard and discovers a sinister plot to overthrow the Federation government. Corin, the young clone of the scientist, Windemere, who tried to use Corree to destroy the Ologrians, is an important part of the scheme. Corree answers the summons disguised as Corin. What she finds is a plan to destroy any beings that do not fit the definition of human. Again, Corree is torn from her beloved planet, but she has to leave in order to save her family and friends. I was blown away at its brilliance (The Mendel Experiment). The characters are 3 dimensional and developed. The story flows smoothly with its premise. Humans are given a new chance to become greater than their creators. No matter what shape Corree takes, she is still Corree all the way, lovable, authentic and intelligent. I am eager to read the sequel. --Penina Keen Spinka, author of Hidden in Mist, Picture Maker Dream Weaver.
