But they have been examined from so many different points of view that it would seem impossible to find any line of thought explanatory of questions in either, much less one which clears up problems in both. Nevertheless such a line of thought is, I believe, to be found in the history of the doctrine of transubstantiation, which from the controversies of the ninth century to its culmination in the Later an Council of 1215 seems, strangely enough, to have received little attention from the standpoint of its literary influence, though it needs but a moment's reflection to perceive that a dogma so closely connected with the life and thought of the later Middle Ages must have affected contemporary literature.
