TM 9-755 76-mm Gun Motor Carriage M18 Hellcat and Armored Utility Vehicle M39

By War Department

Periscope Film LLC. Paperback. Condition: New. 540 pages. Dimensions: 9.0in. x 6.0in. x 1.2in. The M18 Hellcat was an American tank destroyer during World War II. Armed with a 76-mm cannon, it was the fastest tracked armored fighting vehicle during World War II with a top speed up to sixty mph. As a result, Buick nicknamed it the Hellcat. The fast speed was reached by keeping armor thickness to a minimum. Hellcat crews took advantage of the vehicles speed to minimize the enemys ability to pierce its thin armor. The M18s new design incorporated several innovative maintenance features. The Wright R-975 engine was mounted on steel rollers, allowing maintenance crews to disconnect it easily from the transmission, roll it out onto the lowered engine rear cover, service it, and then reconnect it again. The transmission could also easily be removed and rolled out onto a front deck plate to enable quick inspection and repairs. The M18 carried a five man crew as well as forty five rounds of main gun ammunition, and an M2 Browning machine gun on a flexible ring mount for use against aircraft and infantry. The only M18 variant which was produced in significant numbers was the M39...

Reviews

A must buy book if you need to adding benefit. it was actually writtern quite perfectly and beneficial. You wont really feel monotony at anytime of your time (that's what catalogs are for regarding in the event you question me).

-- *Kian Jacobi*

If you need to adding benefit, a must buy book. It usually does not charge excessive. I realized this ebook from my dad and i suggested this publication to learn.
