Forest Statistics for Maryland, 1976 and 1986 (Classic Reprint) (Paperback)

By Thomas S Frieswyk

Forgotten Books, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Forest Statistics for Maryland, 1976 and 1986 A statistical report on the fourth forest survey of Maryland conducted in 1985-86 by the Forest Inventory and Analysis Unit, Northeastern Forest Experiment Station. Statistics for forest area, numbers of trees, timber volume, tree biomass, average annual growth, and timber products output are displayed at the state, and when appropriate at the unit and county levels. The current inventory indicates that the state has approximately billion cubic feet of growing-stock volume, or million tons of net green weight of live trees, on million acres of timberland. For use in trend analysis, this report includes estimates derived from reprocessing the 1976 data using current methods and standards. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Reviews

It is really an remarkable ebook that I actually have ever study. It is actually loaded with knowledge and wisdom You will not truly feel monotony at whenever you want of your time (that's what catalogs are for about in the event you check with me).

-- **Mr. Norval Reilly V**

This publication may be really worth a go through, and a lot better than other. It really is full of knowledge and wisdom Its been printed in an exceptionally easy way in fact it is simply after i finished reading this publication by which basically modified me, affect the way i really believe.

-- **Troy Dietrich DDS**
