## TEXAS: PRE-LICENSE: REAL ESTATE FINANCE (PAPERBACK)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This course provides an introduction to real estate finance. From qualifying the borrower and qualifying the property in the underwriting process to various types of financing, closing the sale, the Community Reinvestment Act and more, we discuss the monetary systems that control the market, delve into supply and demand, cover housing agencies, and discuss the government influence on real estate. Most real estate is purchased with borrowed money. The methods of real estate finance are many and varied. Making real estate loans carries a certain amount of risk for lenders; for this reason, lenders must have a firm grasp of a borrower's financial qualifications. Lenders consider a borrower's income, credit, debt, source of funds, and net worth. However, no analysis, no matter how thorough, of a borrower's creditworthiness, can be enough to ensure that a loan is completely free of risk. You will learn the methods used by lenders to qualify loan applicants and how lenders qualify the property to be mortgaged. This involves a thorough and accurate property valuation, using the sales comparison or cost approach for residential property and a cap rate or discounted cash flow analysis for investment property. These methods of valuation will be discussed in depth so that you will feel confident and familiar with them when you meet them in the real world. The basics of the financing and the sale process are discussed over two lessons. You will learn how title (abstract ownership rights to the property) is transferred to the buyer with a deed. The earnest money contract will also be discussed: terms of the contract, contingencies, and earnest money deposits. In another lesson, the focus turns to closing. You will...
