What is Lean? A lean culture empowers your employees, removes unnecessary waste, and focuses on the customer. Lean is a way of delivering what your customer needs or wants at the lowest cost and in a timely and efficient manner. Lean is not something that sits apart on a shelf, away from your other business processes and is only used when needed. In contrast, it is your organizations way of life. It should be embedded across all of your processes. It s a way of looking at your business processes through an improvement lens and eliminating waste to ensure the customer is getting the most value. This ensures the customer gets what they ask for, when they need it, at the lowest cost. Lean is focused on delivering customer expectations.
