Createspace Independent Publishing Platform, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.The sweeping sickness, a global pandemic. Billions lie fallen, gripped by an unknown affliction. Hope is all the few survivors have. Hope that the collapsed will recover and wake again. But waking is when the real nightmare begins A mystery illness sweeps the globe. Swifter and more virulent than anything ever recorded, enfolding the earth like a savage hand snatching a child's marble. The City Flu in Britain. The Sweeping Sickness in America. Misnomers, semantics, swirls of the matadors cloak, the names don't matter. There isn't time for that. Normal life is slipping its gears, sliding into unknown territory. The illness is never properly classified, identified or studied. The descent into disaster is too fast, the effects so debilitating that the impact is already catastrophic. Put simply, vast numbers of people become too ill to work and so things stop working. Horror is here, and greater horror lies ahead. Because the collapsed aren't just unconscious, they're changing. Cities lie strangely silent. Roads oddly deserted. In the countryside, the fields are empty of humanity, once more the preserve of the beast. The power is failing, the twittersphere going quiet, the fires burning unchecked. After a few unbelievable and devastating days, civilisation stands on the brink of collapse, on the precipitous edge of a fall that will be beyond comprehension. The smouldering dawn of an Apocalypse. A tiny percentage of the population remains unaffected. With incalculable numbers lying unconscious, those lucky enough to be immune are left with the impossible task of coming to terms with the situation, of grasping a horror that that is continuing to reveal itself. Recovery is still possible. The fallen may recover...
