## Geometrization of physical quantities

By Chizhov E.B.

Editorial URSS, 2011. soft. Condition: New. Fundamental and derived physical quantities are geometrized on the basis of the hypothesis of global stationary state of our Universe. A new (L) system of physical quantities based on a single quantity (length) is created and developed. Numerical values of seven base units as well as fundamental physical constants are calculated in the L system. We give a geometric interpretation of fundamental notions of macro- and micro-mechanics and explain a large number of physical phenomena of the macro- and micro-worlds, for example, the principle of uncertainty, the microwave background radiation, the black and white holes, the red shift of galactic objects, the Big Bang, the emergence of matter. Also, we estimate the speed of gravitation of the systems electron-electron, proton-proton, and others. \*\*\* Nota: EL COSTE DE ENVÍO A CANARIAS ES 11.49 EUROS. Si ha realizado un pedido con destino a CANARIAS no podemos hacer el envío con el coste actual. Nos pondremos en contacto con usted para comunicar el coste total del envío a Canarias y si está de acuerdo, Abebooks le efectuará el cargo adicional.

### Reviews

*The best publication i actually study. We have study and that i am certain that i will likely to study once more again later on. Your daily life span will likely be transform the instant you total reading this book.*

-- **Mrs. Alene Leffler DVM**

*This is an amazing publication i actually have at any time go through. It is actually rally interesting throgh reading through period. Its been developed in an exceptionally straightforward way which is merely following i finished reading through this publication where actually altered me, modify the way in my opinion.*

-- **Noah Padberg**
