

Freud, Religion, and Anxiety (Paperback)

By Christopher Chapman

Lulu.com, United States, 2007. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Must psychoanalysis be hostile to religion? Freud was a staunch critic of religion and grounded his views in psychoanalytic theory. This work details the philosophical bases of Freud's attack on religion and shows how he used multiple arguments drawn from epistemology, pragmatic concerns, and psychology. Although Freud's psychoanalytic theories changed significantly over the course of his work, his criticism of religion remained tied to his early theories of anxiety and wish fulfillment. Chapman shows that Freud's later revision of the anxiety theory provides grounds for a different, less critical view of religious behavior. Such a revised psychoanalytic view of religion overcomes many of Freud's criticisms and is compatible with modern theology. Chapman examines the potential convergence of psychoanalytic theory and the theology of Paul Tillich. This is a reprint version of a 1989 work, with a new preface by the author (2007).

Reviews

The publication is easy to read better to understand. It is written in basic words and phrases rather than hard to understand. You won't truly feel monotony at anytime of your respective time (that's what catalogues are for about if you question me).

A top quality publication and also the font employed was interesting to learn. It is really simplistic but excitement within the fifty percent from the book. Its been designed in an remarkably basic way in fact it is only following I finished reading this pdf where in fact changed me, modify the way I believe.
