## CONTROLLING THE CIGARETTE BEETLE IN THE TROPICS (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Controlling the Cigarette Beetle in the Tropics In preventing beetle attack the most important points are sanitation, segregation of infested tobacco, and complete use of stocks before replacement. Knowledge of location and intensity of infestation can be Obtained through the use of insect traps. The most satisfactory type of trap is the suction-light trap. One of the most common methods of insect control in stored tobacco is by means of fumigation. Fumigation may be in vacuum chambers, atmospheric chambers, in entire warehouses, or under tarpaulins. Vacuum fumigation is rapid and completely effective but very expensive. Atmospheric chamber fumigation is slow, satisfactorily effective, and cheaper. Warehouse or space fumigation is relatively fast and cheap, but it is the least efficient. Small lots of tobacco may be fumigated under tarpaulins. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
