EXTENDING THE SCOPE OF PROTEIN SYNTHESIS BY A NOVEL AUXILIARY-BASED NATIVE CHEMICAL LIGATION STRATEGY

Cuvillier Verlag Sep 2013, 2013. Taschenbuch. Condition: Neu. Neuware - There is a constant need for developing improved methods for introducing artificial functionalities into peptides and proteins, as the modification of peptides and proteins is one of the major routes to investigate biological function in vitro and in vivo, e.g. by introduction of spin labels or fluorophores. To improve the synthetic accessibility of chemically modified peptides and proteins a new cysteine-free Native Chemical Ligation strategy based on a photocleavable auxiliary...

Reviews

The ideal pdf i at any time read. I am quite late in start reading this one, but better then never. You will like the way the author create this book.
-- **Eliane Bednar**

This publication might be worthy of a read through, and superior to other. It normally is not going to charge excessive. Its been written in an remarkably simple way and is particularly just after i finished reading through this book through which in fact transformed me, alter the way i really believe.
