When God tells a psychologist he must run for president to prevent the murder of millions of patients and save Western Civilization As We Know It, he writes this book as his campaign autobiography. The psychologist is a political liberal, and a theological skeptic who does not believe in God, but they talk. The only catch is the doctor is locked up in his own mental hospital, diagnosed with mania and psychosis. In the lunatic asylum, the Mad-Doctor lives with fellow inmates Wild Bill (Buckley) and Lady Bird (Johnson). His closest confidants are George Berkeley (the Bishop), Soren Kierkegaard (the Hunchback), and the likes of Kant, Hume, Voltaire, Dorothy Parker, Mahalia Jackson, and Martin Luther. Asylum visitors include Descartes, Abelard, Aristotle, Plato, Elmer Gantry, and Ambrose Bierce. Among others, communications are received from Winston Churchill, Dr. Thomas More, William Jennings Bryan, Mark Twain, Aaron Burr, Michael Servetus, Eleanor of Aquitaine, and the prophet Ezekiel. One of Mad-Doc's six ex-wives, the mother of his children, volunteers to lead his escape team from the asylum, where he's being held as a political prisoner. Elvis Presley and Wilt Chamberlain are his wingmen. Talking regularly with God, he will learn answers to the major questions that have plagued theologians throughout history. He will eventually benefit from the tutelage of Jerry Lee Lewis, and go steady with Janis Joplin. By turns, comic and irreverent, poignant and affectionate, this memoir takes us inside the author's mind to show manic-depression and psychosis happening in real time. Along this wild ride, the writer authoritatively enlightens and entertains audiences on the subjects of mental illness, health care, politics, philosophy, and religion....
