Excerpt from Louisiana Conservationist, Vol. 36: Published by the Department of Wildlife and Fisheries in the Interest of Conservation of Louisiana s Natural Resources; January/February 1984 I had every reason to be. It was the kind of morning that squirrel hunters of my ilk dream of. The temperature hovered around freezing, the ground was dry, the wind calm and not a cloud in the sky. The faintest sliver of a moon that night hadn t provided much light for night feeding and I knew that as soon as it was light and warmed up just a bit, the chances of happening across a hungry foraging squirrel or two were excellent. Squirrel hunting has been in my blood ever since I was a child hunting with my father s old 36-inch full-choke single barrel 12-gauge that at one time matched my height. The thrill of bagging my first squirrel remains unblemished by the passage of decades and is superseded only by the thrill of watching the excitement in my son s face during his first successful hunt.
