Often, we have a hard time believing that He talks to us much at all, let alone the reality that He is always speaking. It s like a transistor radio. Hearing from God simply requires that we find the right frequency. We can tune the dial of our hearts past the static and noise, to find His station. Learning to hear from God requires some fundamental truths: He loves you, He s always talking to You, and He actually wants you to discover what He s saying! God is also inviting you into partnership to share His heart of love with the hurting world. While the languages of the Spirit have commonalities, they are also highly customized and personal. God speaks your language! Developing your dictionary will equip and prepare you to increase in hearing His voice powerfully and confidently.
