This kind of publication is every little thing and taught me to looking ahead of time and a lot more. It is packed with wisdom and knowledge. Once you begin to read the book, it is extremely difficult to leave it before concluding.

In response to a congressional request, GAO compared fiscal year 1986 payments at 13 national forests under the current method for sharing timber receipts with payments under four alternative methods to determine: (1) the impact of such changes on local revenues; and (2) how the changes would affect the Payment in Lieu of Taxes (PILT) Act of 1976. GAO found that: (1) the administrations proposal would have reduced payments by 13.4 million; and (2) alternative proposals would have reduced payments by 8 million, based on sharing timber receipts only, by 4.5 million, based on shared timber receipts and road construction credit, and by 3.5 million, based on shared timber receipts and reforestation. GAO also found that: (1) nationally, the alternatives would have reduced payments by 67 million, based on timber receipts only, by 37 million, based on timber receipts plus road construction credits, and by 29 million, based on timber receipts plus reforestation deposits; and (2) administrations proposal would have reduced 34 counties combined PILT and the 25-percent timber payments from 12.8 million to 7.9 million. This item ships from La Vergne, TN. Paperback.
