

An Introduction to Psychodynamic Counselling

Filesize: 8.1 MB

Reviews

Extremely helpful to all class of individuals. It really is written in straightforward terms instead of difficult to understand. I am just happy to explain how this is the finest publication i have got read inside my own lifestyle and might be the very best ebook for possibly.
(Dr. Meta Smith)

Macmillan Education Jan 2017, 2017. Taschenbuch. Condition: Neu. Neuware - This key book in the Basic Texts in Counselling and Psychotherapy series is an authoritative and accessible introduction to psychodynamic counselling and its basic principles. The author, Laurence Spurling, is a leading figure in the discipline and, here, he examines the underlying psychodynamic approach, its main theoretical ideas and principles of practice, the techniques associated with it and ways of thinking about the conduct of counselling. Looking at two major themes in particular, namely the involvement of counsellors working with clients with severe emotional and psychological problems and the influence of organisational settings on counselling work, this book is an essential guide for students and practitioners of counselling or psychotherapy, along with those from other professions, such as nurses and teachers, who are called upon to use counselling skills in their work. 197 pp. Englisch.
