

Quick Recipes on Symbian OS: Mastering C++ Smartphone Development

By Michael Aubert

John Wiley and Sons Ltd. Paperback. Book Condition: new. BRAND NEW, Quick Recipes on Symbian OS: Mastering C++ Smartphone Development, Michael Aubert, Symbian OS continues to be the top operating system for smartphones across the world, with the number of Symbian OS phones sold now well beyond the 100 million mark. As more and more developers realize the huge opportunities available designing with Symbian OS, one of the first major obstacles they face is the sheer length of time it takes to start producing functional C++ applications for Symbian OS phones. "Quick Recipes on Symbian OS" provides easy-to-use recipes for mastering common development tasks. The book's structured, time-focused approach to becoming familiar with the basics allows readers to get up and running quickly. From the Author This book is meant as an entry point into the Symbian OS C++ development ecosystem. Our goal is to allow you to create a working prototype of your application for Symbian OS within 2 weeks, using only this book, a computer, an internet connection and a Symbian phone. Inside, you will find reusable modules implementing the most common tasks developers usually have to labour on, along with enough information for you to understand them...
