This paper describes how two recent studies in the U.K. can contribute to our understanding of the flexibility of managerial work, and the diversity of managerial behavior. The first study was of 98 managers in industrial and commercial companies. The second of 41 senior administrators in similar posts in the National Health Service in the U.K. Both used lengthy open-ended interviews, silent observation and group discussions. The main conceptual framework for analysis, that of demands, constraints and choices is explained. A detailed classification of the factors determining the nature and amount of flexibility is given. Comparisons of the behavior of managers in similar jobs are used to illustrate the diversity of behavior that is possible both in content and method. The common and distinctive aspects of flexibility...
