This book, a companion to the Chicago Architecture Foundation River Cruise, is your guide to the buildings that make downtown Chicago world famous for architecture and infrastructure. During the past two hundred years, engineers and architects designed twin engineering marvels, the Chicago skyline and the Chicago River. Dredged, straightened, its direction reversed, the river flowed a varied course through the city's history, as Chicagoans built factories, civic structures, waterside homes and parks, and the world's tallest steel-and-glass monuments to big business. The story of Chicago is the story of its river. A View from the River spotlights over fifty buildings, recounting an urban tale that continues to unfold. This item ships from multiple locations.
