Brand New Book. Excerpt from Memoir of the Dancers and Ice: Of the North Atlantic Ocean I have therefore gathered if navigators would persevere in trying for soundings between England and Newfoundland; that detached submarine banks might be discovered, which, their positions being accurately determined, would become, as it were, so many beacons in the ocean, giving the longitude to those vessels navigated solely by account. The voyage to and, from North America in this route would be greatly facilitated, and these indicators would prove as convenient to the mariner as the milestone is to the traveler on the highway.
