Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.It is amazing how a camel can survive the harsh deserts and the hottest spots in the world. The reason for this lies in the way their bodies are designed. Their humps are very important for survival. Even without food and water for many days, the fats in the humps provide for these necessities. Their facial features are also very helpful in the desert travels. Their noses can close. They have extra eyelids and long lashes. These all keep the desert sand from getting into their lungs and eyes. They have thick lips so that they are able to eat even the thorny plants in the desert. These are just some of the amazing things to know about a camel. In this book you will find many more interesting facts to add to what you already know about them. You will learn what they eat, drink, and how they survive in the desert. You will learn about their domesticated lives, what they do and how they are useful to humans. Some of the questions you might have about camels will be answered in this book. Questions like: Are camels aggressive animals? What do they do if they are threatened by humans? What is a bachelor herd? Do they have predators? What is a Bactrian camel? What is an F1 camel? Who are the camel s relatives? This book also contains more than 20 colorful photographs of the camel in its natural habitat. These photos will help you understand the life of a camel better.
