At long last, a guide to writing online content that shows the reader direct examples rather than endless fluffy guidance. Web Content - The Beginners Masterclass offers a practical and demonstrative means toward gaining your own, distinct content authoring style. Written with the intent of leading by example, this book contains a selection of articles which encompass many of the more popular subjects and genres commonly seen in the news media. Through these demonstrative means, it intends to imbue many of the key aspects of content and copy writing heavily weighed toward a high grade of shareability by its audience.
