Forgotten Books, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from An Australasian Wander-Year The ensuing pages on Australasian travel have been chiefly written from the point of view of the picturesque, and do not profess to deal either with the past history or the present political outlook of the Commonwealth of Australia. They are especially intended for the benefit of the British visitor to Australia and New Zealand, who, I venture to think, will find various matters of interest and some practical hints in these pages. It is a record of recent travel over a large area in the Antipodes, so that my own experiences and expeditions may supply some useful information to those who are anxious to become acquainted with some of the natural beauties and with the acknowledged show-sights of Australasia. As to the best time of the year to visit Australia, the months of June, July and August (the southern winter) are the most suitable for Queensland, with its tropical climate; whilst from August to November the weather is generally delightful in New South Wales, Victoria and South Australia. The winters in Tasmania and the South Island of New Zealand are often long, cold and wet, so that these places should be visited between November and March. On the other hand, the climate of the North Island of New Zealand, perhaps the most lovely and interesting of all lands in the Southern Hemisphere, is usually pleasant all the year, with the exception of the months of May, June and July.
