

Mathematical Questions with Their Solutions, from the Educational Times Volume 27

Filesize: 7.22 MB

Reviews

*Completely among the best pdf I actually have possibly read through. It is probably the most awesome pdf we have read. You won't really feel monotony at whenever you want of your time (that's what catalogs are for about in the event you ask me).

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1864 Excerpt: . Hence the reciprocal of C , will be the reciprocal of the inverse of C , that is to say, the first negative pedal of C , and must accordingly be denoted by C_j Similarly the reciprocal of C_2 is C_2 , the first negative pedal of C and so on. A mere inspection of the above two series--in pedal of the inverse C , of the primitive curve C ; or what is equivalent, the $(-n+1)$ th pedal of the reciprocal C of the primitive. 2. Writing J for the operation of inversion, R for that of reciprocation, and P for that of taking the pedal, we have, by definitions and the first part of art. 1, $J^2 = R = 1$, $P = JR$; $JP = J^2R = E$, $RJP = K^2 = 1$, $RJ = P^{-1}$. 3. These, then, are the laws of combination of the symbols R , J , P . We can now immediately prove the theorems in the question. For 4. Again; any formula may be transformed by interchanging R and J , and reversing the signs of all indices of P . To derive in this way the second pair of theorems from the first, we shall have to make a further change from n to $-n$. The formula; (3) and (4) are immediately convertible. 5. The theory of Derived Surfaces and Curves is simply that of the interpretation of symbols. Let any straight line meet two rectangular axes Ox , Oy in A , B , and...
