Reviews

I just began reading this pdf. It is actually written in straightforward words instead of hard to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

CULTURAL KNOWLEDGE TEST ADAPTATION

To download **Cultural Knowledge Test Adaptation** eBook, you should follow the web link listed below and save the ebook or have access to other information which might be in conjunction with CULTURAL KNOWLEDGE TEST ADAPTATION book.

GRIN Verlag Jul 2011, 2011. Taschenbuch. Book Condition: Neu. 210x148x2 mm. This item is printed on demand - Print on Demand Neuware - Seminar paper from the year 2008 in the subject Sociology - Methodology and Methods, grade: 1,00, Jacobs University Bremen gGmbH, language: English, abstract: Cultural intelligence (CQ) is 'an individual's capability to adapt effectively to new cultural contexts' (Early & Ang, 2003, p. 59). To measure CQ the Cultural Research Group at Florida Tech University have used a multidimensional scale with four specific components which they use as the initial indicators of CQ: Cognitive CQ, Meta-Cognitive CQ, Motivational CQ, and Behavioral CQ. The Cultural Intelligence Scale (CQS) was developed by Ang, (Ang et al, In Press) to assess CQ. The content validity of this model has serious problems as there are many important indicators of Cultural Knowledge missing. The missing elements impair the ability of the test to accurately measure cultural knowledge. Some indicators which we believe are missing include time perception and eating behavior and traditional foods. Also it is much more useful to combine the indicator 'Language' together with the indicator for 'non verbal displays' because separating the variables loses important areas like greetings and verbal communication displays that may not exactly fall under language or non-verbal displays. Thus we suggest an indicator for verbal and non verbal communication as this includes both language and non verbal displays but also provides for questions about greetings and colloquial speech. Lastly we also suggest that the indicator 'Arts and Crafts' should be replaced with the indicator Arts which would cover cultural areas such as music, theater, and artwork that were previously left out by the original construct. After fixing the problems of content validity in our questionnaire it is apparent this questionnaire is extremely adaptable to other cultures....
