Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1919 Excerpt: .be so arranged that there may be no danger from breaking glass. Heavy glass, such as that used in bull s-eye indicators, or guards of wired glass, obviate such danger. RESUSCITATION Quick Action Essential. The safety engineering department of a plant is interested not only in preventing accidents, but also in handling the situation afterwards. An employe rendered unconscious by electric shock, gas asphyxiation, drowning, or a severe blow, should be quickly resuscitated. Knowledge of proper methods of resuscitation is particularly important where there is electrical equipment Fig. 94. Automatic Link and Pin Coupler for Narrow-Gage Cars. This Coupler Is Very Simple Having Only Two Moving Parts. The Pin Enters from the Bottom of the Link and Is Held in Position by the Operating Lever Which Serves as a Counterweight of 440 volts or higher, since accidental contact with a live conductor in such a system...
