Martino Fine Books, 2009. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. REPRINT. pp.200. B W illustrations. This book is intended for the home craftsman who wants to make all sorts of things in wood from a table lamp to a rabbit hutch. To the tradesman carpentry refers to the constructional woodwork of a house-the roof, flooring, and so on. To the man in the street, however, it generally means the making of almost every thing in wood; hence the general character of the designs we give. We give a range of comparatively simple designs for objects to make which we know from experience to be in everyday demand; small general items, pieces of furniture, and garden woodwork. These are followed by instructions on the use of tools, and the everyday processes involved in woodwork-making doors, hinging, fitting locks, and cutting joints.
